## ERRATUM TO LIST OF RECLASSIFIED FM FACILITIES

In a Public Notice released March 24, 1987, FCC 87-93, 52 Fed. Reg. 10757 (April 3, 1987), the Commission stated that it would prepare a list of facilities reclassified pursuant to BC Docket 80-90 as soon as possible after March 2, 1987. A Public Notice announcing the availability of that list was released on April 13, 1987 (Mimeo No. 2698), 52 Fed. Reg. 12964 (April 20, 1987).

This Public Notice contains corrections to the April 13, 1987, list of reclassified facilities. The corrections are arranged in order by the page number of the April 13th list. The whole allotment group appears on the correction even though only one data item in the group has been corrected.

Corrections consist of, but are not limited to, the following:

(1) Adding timely filed applications to an allotment group which resulted in a class change for the allotment.

(2) Correcting ERP or HAAT values which result in class changes for the assignment or allotment.

(3) Adding timely filed waiver requests which we discovered after the the reclassification took place. In these instances, the classes are being changed back to the situation that existed before the reclassification. This does not mean that the waiver has been granted; rather it means that the classes will remain the same pending action on the waiver request.

Questions regarding this Public Notice should be directed to Gary Kalagian (202) 632-2049 or John Boursy (202) 634-6315.
